## About Me

A.B.Tech in Computer Science with a specialization in Artificial Intelligence and Machine Learning (AI/ML) is a three-year lateral entry program for diploma holders. This degree builds on your foundational engineering knowledge by diving into specialized subjects like machine learning algorithms, deep learning, and data analytics. Graduates are well-prepared for professional roles as machine learning engineers, data scientists, and AI developers, with a goal of leveraging their practical skills to drive innovation in the tech industry.

## Internships
